MEMORANDUM

SUBJECT: Termination of Referral to Superfund for Drum Removal and Capping of
Lead-Contaminated Soil at the R.V. Hopkins Site, Davenport, Iowa
Docket Number RCRA-07-2012-0046
RV Hopkins Site, Davenport, Iowa
EPA ID # IAD022096028

FROM: Bruce A. Morrison, Project Manager 
RCRA Corrective Action and Permits Section
Waste Remediation and Permitting Branch
Air and Waste Management Division

THRU: Don Lininger, Chief 
Waste Remediation and Permitting Branch
Air and Waste Management Division

TO: Adam Ruiz, Chief
Response and Removal South Section
Superfund Division

RCRA file

On May 24, 2017, the Waste Remediation and Permitting Branch sent an interoffice memorandum to you referring the former R.V. Hopkins, Inc. facility to the Superfund Division for the purpose of conducting an assessment of potential drum removal and lead soil capping or removal. Since that time, the Waste Remediation and Permitting Branch ascertained responsible party funding and subsequent completion of these activities. We are in the process of preparing Environmental Covenants with current land owners of the site, which will be the final step in completing corrective measures. Therefore, the Waste Remediation and Permitting Branch is terminating our referral of the aforementioned assessment and removal action, as this work has been completed at the former R.V. Hopkins site.
